

An Update

It's amazing what a difference a trimester makes! We began this school year with a focus on the concept of "Yet." We embraced the idea that time and persistence can improve a child's ability and performance; a concept or skill is too difficult, it's just not mastered YET. When a child believes this, s/he has adopted a Growth Mindset. Tenacity, improvement, and learning from mistakes are the foundation of a Growth Mindset. Yesterday, a student brought me his STAR Reading Assessment to show me that his reading had improved 1 ½ grade levels in three months! While this is not every child's experience, it is a testimony to the coaching he received from instruction and intervention, and to **his growing belief that he could improve**. We continue to adopt our feedback and encouragement to your child by complimenting effort, appreciating creative approaches, fostering independence and endurance, and reminding each student of our faith in them. Thank you for supporting this initiative!

Blessings,

Congratulations to Mrs. Alvey's 4th grade HR. They won the Marco's Pizza challenge and earned a pizza party. The next Marco's Pizza night is February 16th. Pick up some pizza, mention St. B and a HR teacher, and we will get a cut of the proceeds, and the winning homeroom gets lunch!
